3	eng_consent Show the field ONLY if: [languages]=1	We are asking you to participate in a research study. In this study, we are trying to learn about the effects of social distancing on people's relationships at home. You may participate in the study if: (1) you are or were practicing social distancing due to COVID-19; (2) you are/were living with at least one other person during social distancing; and (3) you are 18 years of age or older. We ask that only one person in each household participate. By social distancing we mean the practice of reducing physical contact with people outside of the home (e.g., in social, work, or school settings) to avoid transmission of COVID-19 (Coronavirus). If you agree to participate in the study, you will complete a questionnaire about your relationships with people in your home during social distancing. This should take around 10-15 minutes. Participation is voluntary. Taking part in the study involves no risks. Your answers to the questionnaire will be anonymous. The researchers will not know your identity. By moving forward, you consent to being part of this study. Please answer all questions in this survey. If you prefer not to answer a question, you can check "prefer not to answer" and move on. If you have any questions or comments about the research, please contact Victoria Behar-Zusman, PhD or Jennifer V. Chavez, MPH, CPH University of Miami School of Nursing and Health Studies, at 1- 305-284-1558 or elcentro@miami.edu. If you have questions regarding your rights as a research participant, contact the University of Miami, Human Subject Research Office at hsro@miami.edu or 1- 305 243-3195.	descriptive

4	consent_spa Show the field ONLY if: [languages]=2	Le pedimos que participe en un estudio de investigación. En este estudio, estamos tratando de aprender sobre los efectos del distanciamiento social en las relaciones entre la familia. Puede participar en el estudio si: (1) está o estaba practicando distanciamiento social debido a COVID-19; (2) usted está o estuvo viviendo con al menos una otra persona durante el distanciamiento social; y (3) tiene por lo menos 18 años de edad. Pedimos que solo una persona en cada hogar participe. La práctica de distanciamiento social consiste en reducir su contacto cercano con personas fuera del hogar (por ejemplo, en lugares sociales, de trabajo o escuelas), para evitar la transmisión del virus COVID-19 (Coronavirus). Si usted acepta participar en el estudio, contestara unas preguntas sobre sus relaciones con las personas en su hogar durante el distanciamiento social. Esto le tomara alrededor de 10-15 minutos. Su participación es voluntaria. Participar en el estudio no implica riesgos. Sus respuestas serán anónimas. Los investigadores no sabrán su identidad. Al avanzar, usted acepta ser parte de este estudio. Por favor responda todas las preguntas en esta encuesta. Si prefiere no responder una pregunta, puede marcar "prefiera no responder" y continuar. Si tiene alguna pregunta o comentario sobre la entrevista, por favor contacte a Victoria Behar-Zusman, PhD o Jennifer V. Chavez, MPH, CPH en la Universidad de Miami Escuela de Enfermería y Estudios de Salud al 1-305-284-1558 o elcentro@miami.edu. Si tiene alguna pregunta sobre sus derechos como un participante en esta entrevista puede comunicarse con la Oficina de Estudios de Subjetos Humanos a hsro@miami.edu o 1-305-243-3195.	descriptive
